Professional Hypnotherapy Diploma Course

2020

About the World Federation of Hypnotherapists (WFH)

The WFH was founded in 1981 by David Canova who is now the life president.

Although the WFH is one of the oldest-established hypnotherapy training bodies, it has been successfully training hypnotherapists for over 30 years, and has kept pace with the latest research and developments in the profession. A disciplinary procedure is also in place and has been exercised in the past.

The WFH has a strict professional code of ethics and a Constitution which every graduate is expected to abide by, to ensure the safety and welfare of the general public.

WFH is a not-for-profit Hypnotherapy Training Body, run by an elected management committee.

Richard Evans	Accredited trainer with the British National Register of Advanced Hypnotherapists
David Adam	Fellow of the WFH CMH.C.Hyp Certificated self hypnosis trainer
Gwen Davis	Fellow of the WFH Certificate in Counselling Skills Certificate in Psychology and Modalities of Depression
David and Wendy Lowe	Members of the WFH, The Complementary and Natural Healthcare Council, (CNHC) the Past Life Therapists Association, with diplomas in Cognitive Behaviour Therapy (CBT) and Rational Emotive Behaviour Therapy (REBT). Qualified PTTL's teachers.

Course Tutors: David and Wendy Lowe

David and Wendy are full time professional hypnotherapists, using NLP, CBT, EFT, Geneline Therapy and many other tools.

They are registered with the CNHC, the accredited register for professional standards.

Both have backgrounds in healing and complementary therapies with a vast amount of experience in teaching in those fields. They work as a team, each giving their own unique insights. Learning should be clear concise but also fun and enjoyable and David and Wendy do their best to ensure your learning experience is rewarding and enjoyable.

The Philosophy of the WFH

Hypnosis has many different facets, each reflecting a different dimension of the phenomenon. By focusing on the clinical use of hypnotic principles and approaches we teach the essential skills of using words and gestures in particular ways to achieve particular therapeutic outcomes suitable for the Client.

WFH offers CPD and mentoring for members.

The key purpose in the process of hypnotherapy is the outcome for the patient and this is always freedom. Freedom from whatever it is that is creating behaviour that impairs their freedom to live how they wish

People define hypnosis differently and it still remains a contentious issue:-

"...a communication of ideas and understandings to a patient in such a fashion that he will be most receptive to the presented ideas and thereby motivated to explore his own body potentials for the control of his psychological and physiological responses and behaviour" (Erickson & Rossi, 1980)

"Hypnosis is an altered state of awareness in which the individual withdraws his peripheral awareness and concentrates all attention on a focal goal... is related to the ability to concentrate in an attentive, responsive manner, even to the point of dissociation" (Spiegel, 1972).

Benefits of becoming a qualified hypnotherapist

There is a growing demand for qualified hypnotherapists, so if you are considering a career change or looking to supplement your present income, hypnotherapy is a good choice. You can run a hypnotherapy business from your own home if you choose to, with flexible working hours.

As you learn about and experience this fascinating therapy, you will achieve a new level of understanding about yourself, as well as the ability to help others overcome many emotionally-based issues, and achieve their goals.

Here are just some areas where a qualified hypnotherapist can offer effective help:

Smoking cessation	Stress management	Habits (nail biting, etc.)
Exam nerves	Confidence issues	Driving test nerves
Social phobias	Goal achievement	Weight control

The WFH training course will also show you how to recognise when a condition or situation is beyond your area of expertise.

In addition to hypnotherapy techniques, the course will introduce you to Neuro Linguistic Programming (NLP) and Emotional Freedom Technique (EFT).

Professional Hypnotherapy Diploma course

Standard Curriculum appropriate with the National Hypnotherapy Training Standards, with a core curriculum and learning outcomes to include the principles of good practice mapped to the National Occupational Standards.

GHSC

General Hypnotherapy Standards Council

This WFH Diploma course is officially approved and listed by the Hypnotherapy Association.

The course meets the minimum requirements in terms of face to face classroom training not less than 120 hours and home study of 330 hours. Total of 450 hours.

Face to face training weekends are spread over a period of months, allowing you time to reflect on what you have covered as part of the classroom tuition, and time to complete all the home study tasks. Home study tasks to include extensive reading, (see attached reading list) written assignments (various induction techniques), research (case studies) and the use of metaphors in a therapeutic setting. Study will bring about an increase in self awareness and personal growth. 8 Modules and training weekend will consist of a Saturday 10am – 6pm, Sunday 10am – 5pm. Coffee breaks (10mins) mid-morning and afternoon and 45 min lunch break.

Student numbers are strictly limited in order to ensure that you get the greatest possible benefit from intensive classroom tuition and practical activities.

Your progress will be continually assessed by written assignments, including therapeutic scripts and the production of an audio recording. You will be given a reading list to complement and support the course content, and at the end of the course you are required to take a written exam.

The Management Committee meets and interviews each student as training progresses and approves membership of the WFH

Beyond the Intensive Professional Hypnotherapy course

Once you have completed the course, the WFH team will provide you with support and guidance while you are setting up your hypnotherapy practice, as well as once your business is up and running.

Continuous Professional Development

In order to ensure that clients receive the very best treatment, practising hypnotherapists must keep abreast of changes in the profession - for example, new techniques and research. As part of the WFH Code of Ethics, Members of the WFH are required to commit themselves to attending an adequate number of workshops or seminars each year. Currently this is a minimum of two 'units', one unit being a workshop or seminar relevant to professional hypnotherapy or another acceptable complimentary practice.

Course Fees

- The total cost is £1400
- Payable by installments
- Fees are payable via cheque, bank transfer, credit card or Paypal.
- Discount of £200 for full payment in advance (during first workshop).

Each applicant is assessed for suitability. The WFH has the absolute right to refuse anyone deemed to be unsuitable for training.

Course Dates to commence Spring 2020.

Training venue will be in Nottinghamshire. NG17 7HY. See www.w-fh.co.uk for updates course dates.
